

LOS CABOS

Notes from the Road

GET MORE OCEANSIDE IN YOUR LIFE

By Sara Robertson

When you hear “Los Cabos,” you think: all-inclusive resort, oceanside leisure, sunshine. And all of that is true. Once I visited, I found even more: adventure, oasis, will-it-be-okay-if-I-accidentally-miss-my-flight-home? The aspect I was most excited about, I didn’t hesitate to share with my friends and family prior to my departure, was the food. And, oh yes, the food impressed—and so did every other moment.

MEET AND STAY

Staying at **Nobu Hotel Los Cabos** felt like a dream with my expansive studio suite. Whether your room offers views of the golf course or the private beach, you’re bound to spend some time gazing out the window. The bathroom made it ultra-luxurious, with a rain shower and an onsen teak soaking tub against a wall decorated with smooth pebbles. The property offers 200 guest rooms alongside over 30,000 sq. ft. of meeting space. **Grand Velas Boutique Hotel** made waves in Los Cabos when it opened in January 2024. With 79 suites and 10 room categories, the adults-only, all-inclusive luxury property is perfect for a bespoke experience, with private plunge pools or hot tubs available on the balconies of every room. From the oceanfront Terraza Cielo, your attendees can

enjoy fresh oceanfront air and views of a private beach. At **Chileno Bay Resort & Residences, Auberge Resorts Collection**, you’ll find yet another private beach, and one of the only swimmable private beaches in Cabo San Lucas. The resort is known for its legendary Tom Fazio-designed golf course, available to members and hotel guests only. With three food and beverage outlets, an elegant spa with a hydrotherapy circuit and exciting activities such as the ever-

EXPERIENCE

If you can tear yourself away from your incredible all-inclusive experience (though I couldn’t blame you if you decided to #resortlife it all the way through), head to San José del Cabo. If you have friends back home waiting on souvenirs, this is where you’ll find them. Plus, the historic downtown is home to celebrated art galleries.

If your attendees are on the more adventurous side, tour operator **High Tide Los Cabos** has activities to suit a range of group sizes and preferences. I embarked on a jeep tour to Fox Canyon, a pristine regional preserve. Though suited for smaller groups, if you have a larger group, High Tide will work with you to coordinate a fleet so you can bring everyone for this once-in-a-lifetime experience.

popular sunrise paddleboarding, it has all-inclusive woven into every offering. It offers 160 guest rooms, plus villas based on availability, and one meeting room with space for up to 25 attendees, in addition to restaurant buyouts.

EAT

If you’re staying at Nobu, don’t pass up the opportunity to dine at **Pacific**, where I had the first of many fish tacos I would get throughout my visit, while enjoying views of the beach.

Grand Velas Boutique Hotel offers three restaurants, one for each meal. Plus, guests have access to seven more restaurants at Grand Velas Los Cabos. I sat down for a delicious five-course tasting menu at **Roca**, where the meal paired with the ocean views was simply unmatched. You’ll find yet another oceanfront dining experience at **Chileno Bay’s Comal**. Everything I ordered was outstanding, but the churro and hot chocolate dessert took the gold. I’m still dreaming of it.
